
cakephp-queuesadilla

Release 1.0.0

Jose Diaz-Gonzalez

May 10, 2022

Contents

1	Quesadilla Plugin 3.0	1
1.1	Background	1
1.2	Requirements	1
1.3	What does this plugin do?	1

This plugin is a simple wrapper around the Queuesadilla library, providing tighter integration with the CakePHP framework.

1.1 Background

1.2 Requirements

- CakePHP 3.x
- PHP 5.4+
- Patience

1.3 What does this plugin do?

- Provides a shell that reads from app configuration to run a Queuesadilla worker
- Provides a queuing engine factory like you would see with Cache, Logging, or Email.
